

32. The motorcycle wheel of claim 29, wherein the rim, hub, and plurality of spokes are integrally formed with each other.

33. The motorcycle wheel of claim 29, wherein the axis of rotation defines an axial direction, wherein the ends of the spokes connected to the hub define a first width measured in the axial direction, and wherein the ends of the spokes connected to the rim define a second width measured in the axial direction, the second width being approximately $\frac{1}{2}$ the distance of the first width.

REMARKS

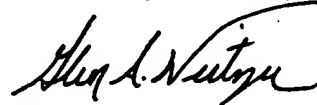

Applicants add claims 15-33 such that claims 1-3 and 5-33 are pending in this application. Applicants initially note with appreciation that the Examiner has allowed claims 1-3 and 5-14. Applicants respectfully request allowance of all the pending claims.

Comments on Statement of Reasons for Allowance Under 37 C.F.R. 1.104(e)

The reasons set forth by the Examiner refer only to some of the features in the independent claim, and are not the only reasons that all of the claims are allowable. Each of the independent claims and dependent claims include additional patentable features or combinations of features not mentioned by the Examiner.

The Examiner is invited to contact the undersigned attorney should the Examiner determine that such action would facilitate the prosecution and allowance of the present application.

Respectfully submitted,

Glen A. Weitzer
